**Subject: EIT Overview**

EIT (Electronic Instrumentation and Technology LLC); headquartered in Leesburg, VA was established in 1977 and provides contract Electronic Manufacturing Services (EMS) of mid to high-technology assemblies. EIT produces assemblies for medical, communication, industrial & analytical instrument and aerospace/defense customers.

EIT has additional manufacturing facilities in Danville, VA and Salem, NH and is vertically integrated with capabilities and services including:

- Electronic, Mechanical and Software Engineering Services including Circuit Design, Printed Circuit Board (PCB) layout and Mechanical Design
- Mechanical Assembly (Box-Build), Warehouse, Order Fulfillment and Repair/Service Depot
- Precision Machining and Sheet Metal Services
- Cabling and Wire Harness Assembly

EIT's first industrial UV measurement product was developed and sold in 1984. We have sold over 100,000 units and our product line includes instruments and sensors for UV LED & UV Broadband (arc, microwave, spot) sources.

EIT designs, manufactures, assembles, calibrates, supports, services and sells our products through an extensive worldwide distribution network that offers technical support and sales.

Service is available from EIT or through one of our EIT Authorized Service Centers.
